

Invitation

Meet the Market event

16th of September, 2015

10:00-16:00

SP, Gothenburg

Welcome to a dialogue on procurement of innovative solutions for ventilation and indoor climate

Borlänge municipality, Tunabyggen and SP Technical institute of Sweden welcome you to a Meet the Market event in the PROBIS project.

We invite suppliers and leading developers, in ventilation and indoor climate, to a dialogue on how to procure innovative and energy efficient solutions.

The pilot procurement is the process of renovating a residential building in Tjärna ängar in Borlänge Municipality and we are looking for inspiration, innovation and insights to make it happen.

If you have any further questions or comments regarding the project or the event, please do not hesitate to contact Fredric.norefjall@sp.se.

Welcome!

*PROBIS (Procurement of Building Innovative Solutions) is a project funded by European Commission that has the general objective to support four pilot **Public Procurements for Innovations (PPI)** for increasing energy efficiency and sustainability of buildings.*

 **Borlänge**

TUNABYGGEN
